

Final Department of Commerce FY 2009/2010 Financial Statements Guidance HFM Data Submissions/Reports

I. Purpose

This guidance applies to the Department of Commerce (Department) reporting entities' (hereinafter referred to as bureaus) preparation and loading or entering of the following into the Hyperion Financial Management system (HFM) <https://hfmocs.doc.gov> for completion of the Department's financial statements/notes to the financial statements (footnotes)/Required Supplementary Information (RSI) / Closing Package reclassified financial statements, notes, and other data/Federal Agencies' Centralized Trial Balance System I (FACTS I) Adjusted Trial Balances (ATBs)/Intragovernmental Reconciliations/Erroneous Payments Data:

- a) Expanded Trial Balances (ETBs) - bureaus load data, via text files, into HFM
- b) Supplemental data submissions for 1) Balance Sheet Split SGL Accounts; 2) Statement of Changes in Net Position Split SGL Accounts; 3) Statement of Financing Supplemental Data Accounts - bureaus load data, via text files or enter data, via Forms (Statement of Financing accounts), into HFM
- c) Supplemental – non Standard General Ledger (SGL) footnote and Closing Package Notes/Other Data, including Closing Package Notes/Other Data text - bureaus enter data/text, via Forms, into HFM
- d) Supplemental (non-SGL) other quarterly requirements data: Department of Labor confirmation, Office of Personnel Management confirmation, SF 133s (report on budget execution and budgetary resources), and Erroneous Payments Data – bureaus enter data, via Forms, into HFM
- e) Journal Entries – Office of Financial Management (OFM) enters data, via Journals module, into HFM

Detailed guidance for the Closing Package Notes/Other Data submission requirements is provided in Section VIII and Exhibit 5 Part B. Please refer to FY 2009/2010 Financial Statements Guidance Attachment G, *FACTS I/Closing Package* for the manual data submission requirements.

II. HFM Entities

For each bureau, the following have been established in HFM:

- Bureau Entity (where all of the below entities get consolidated into)
- Applicable Treasury Appropriation/Fund Groups (per the Department's Master Appropriation File)

Bureau Entity (Fund) Additions and Deletions

Bureaus are responsible for notifying the appropriate OFPA Bureau Liaison, and Financial Statements Team Leader of the need to **ADD all** new fund groups (TAFS)/entities to HFM. Notification should be in the form of an e-mail, and must be accompanied by the following information:

- Treasury Appropriation/Fund Group (TAFS), and HFM Fund Code (if applicable – **currently only applies to NOAA and BIS**)
- Fund effective date
- Name of Fund
- Type of Fund (see Attachment G, Exhibit 1, page G-8)
- Budget Sub-Function (BSF) Code (see Attachment G, Exhibit 1, page G-8)
- Reason for addition
- Bureau Goal
- Designate if a parent or child entity, if applicable

- Earmarked or Non-Earmarked Rationale (**bureaus must supply written responses to the 3 FASAB Earmarked Fund Criteria – see excerpt below**)

The Federal Accounting Standards Advisory Board (FASAB) Statement of Federal Financial Accounting Standards (SFFAS) 27, Identifying and Reporting Earmarked Funds, paragraph 11, asserts that a fund should be designated earmarked when all 3 of the following criteria are met:

1. A statute committing the Federal Government to use specifically identified revenues and other financing sources only for designated activities, benefits and purposes;
2. Explicit authority for the earmarked fund to retain revenues and other financing sources not used in the current period for future use to finance the designated activities, benefits, or purposes; and
3. A requirement to account for and report on the receipt, use and retention of the revenues and other financing sources that distinguishes the earmarked fund from the Government's general revenues.

- Faxed or e-mailed copy of the applicable Public Law, or other Authoritative Document (if applicable) regarding the Fund

Additions will not be approved **unless** all of the above information has been provided. The OFPA Bureau Liaison or Financial Statements Team Leader will notify HFM Administrator of approved bureau's request, and provide HFM Administrator with the requested information, and effective date. HFM Administrator will then update HFM entity structure. OFPA reserves the right to request additional fund information, if necessary.

Bureaus are also responsible for notifying the appropriate OFPA Bureau Liaison, and Financial Statements Team Leader of the need to **RETIRE** funds in HFM due to discontinuance, end of program, and/or cancellation. Notification should be in the form of an e-mail, and must be accompanied by the following information:

- Treasury Appropriation/Fund Group (TAFS), and HFM Fund Code (if applicable – currently only applies to NOAA and BIS)
- Effective date
- Name of Fund
- Reason for deletion/retirement

Bureaus should note: 1. Bureaus are still required to include any Fund addition/retirement (deletions) in bureau's Annual Master Appropriation File (MAF – see Attachment G) data call response; and 2. Quarterly Finance Manager, and CFO certification of Fund additions/retirements (deletions) is required, and is a sign-off item on the Bureau CFO Review Procedures Checklist (see manual template).

See **Exhibit 1** for HFM entities as of **March 2009**, and for a summary of entity changes.

III. HFM Categories and Periods

The following categories have been or will be established applicable to **FY 2009 and FY 2010**:

Categories:

POSTCLOSE_FY2008 (these will be the beginning balances for FY 2009)
PRECLOSE_FY2009

POSTCLOSE_FY2009 (these will be the beginning balances for FY 2010)
 PRECLOSE_FY2010
 POSTCLOSE_FY2010 (these will be the beginning balances for FY 2011)

For each category, quarters one, two, three, and four have been or will be established as the periods.

IV. HFM SGL Chart of Accounts (Accounts Applicable to the Bureaus' ETBs Submissions)

The HFM SGL accounts are used to produce the financial statements, footnotes, ATBs, Closing Package Statements and Notes.

The HFM major SGL accounts begin with the four-digit SGL account, plus, three digit place holders for attributes needed to produce the financial statements or ATBs. The dollar sign (\$) is used as the place holder.

See **Exhibit 2** for the HFM major SGL accounts for FY 2009/2010, including descriptions of the attributes included in the major SGL accounts. **Exhibit 2** also contains a summary of changes to HFM major SGL accounts. Example: 1010\$\$\$ (Fund Balance with Treasury)

Dimensions in HFM

A dimension in HFM describes an organization's data and usually contains groups of related members. HFM supplies eight system-defined dimensions and enables you to populate up to four custom dimensions that you can apply to HFM accounts.

The 8 predefined dimensions are as follows:

- **Scenario** (PreClose/PostClose),
- **Year** (Fiscal Year – Years 2000 to 2029)
- **Period** (Quarters)
- **View** (Periodic, YTD)
- **Entity** (13 Entities and Individual Bureaus)
- **Value** (Entity Cur Total-Default, Entity Cur Adjs –Journal Entry view, Entity Currency)
- **Account** (Trial Balances, Statements, Footnotes, etc.), InterCompany Partner (ICP)-Intragovernmental/Intra-Commerce trading partners.
- **ICP** (Intragovernmental, Intracommerce)

The remaining 4 customized dimensions are:

- **Custom 1** (Forms, Load and Adjustments)
- **Custom 2** (Bureau goals)
- **Custom 3** (Earmark Funds)
- **Custom 4** (Not currently being used).

The Point of View bar (POV) allows bureaus to determine the format of the data being viewed.

V. HFM Non-SGL Chart of Accounts (Includes Accounts Applicable to the Bureaus' Supplemental Data Submissions)

The HFM non-SGL accounts are also used to produce the financial statements, footnotes, ATBs, Closing Package financial statements/Notes/Other Data, and other required reports.

See **Sections VII and VIII** for the HFM Non-SGL Chart of Accounts – Supplemental Data Accounts, which includes the following account types:

- **Balance Sheet Split SGL Accounts (Supplemental Data Submission)** – SGL accounts that may

crosswalk to more than one financial statement line item

- **Statement of Changes in Net Position Split SGL Accounts (Supplemental Data Submission)** - SGL accounts that may crosswalk to more than one financial statement line item
- **Reconciliation of Net Cost of Operations (proprietary) to Budget Supplemental Data Submission Accounts (Supplemental Data Submission)** – Information necessary to populate certain Statement of Financing line items

Non-SGL Chart of Accounts for the following categories are not listed in Sections VII and VIII:

- Accounts for Supplemental (Non-SGL) Footnote Data (Data is Entered, via Forms, into HFM)
- Accounts for Supplemental (Non-SGL) Closing Package Notes/Other Data (Data and Text are Entered, via Forms, into HFM)
- Accounts for Supplemental (Non-SGL) Other Quarterly Reporting Requirements (DOL and OPM Confirmations, SF 133s data, and Erroneous Payments Data (data is Entered via Forms, into HFM)

HFM accounts have been established for each line item of the following financial statements:

- Balance Sheet
- Statement of Net Cost
- Statement of Changes in Net Position
- Statement of Budgetary Resources
- Statement of Custodial Activity

Each financial statement line account has two sub-accounts: a) XXXX_I (For on top adjustments via Journal entries) and b) XXXX_S (for the Treasury crosswalk formulas roll ups). OFM prepares journal entries on behalf of the bureaus.

VI. Bureau ETBs Submissions

Bureaus are required to prepare quarterly preclose ETBs and year-end postclose ETBs in a .dat file format, and load the file into HFM via HAL (Hyperion Application Link). Bureau representatives will “consolidate” the data or OFM will “consolidate” upon request. Bureaus will print and verify the HFM data and reports.

The ETBs consist of the following dimensions in columns and all other dimensions are defined in the first sections for each transaction:

- HFM Entity (e.g., USPTO Fund Group 1006 = 56_00_1006)
- HFM SGL Account Number (e.g. 2110F\$A)
- ICP (e.g. 03)
- Custom 2 (e.g. [None] or [BG12])
- Custom 3 (e.g.[None] or [Earmark])
- Dollar amount (e.g. -124743.56)

See **Exhibit 4** for the required ETBs format/sample.

Bureaus are required to prepare/load ETBs as specified in the due dates calendar. To load ETBs into HFM, please follow the below steps:

- 1) Save the ETBs text file (DAT format) that you are going to load on your **C drive**
- 2) Log on to HFM click on Bureau_Workspace
- 3) Choose “HFM Load”
- 4) Click on “Add”, then select the ETBs file from your C drive. (Reminder: ETBs are stored in DAT file format. You may need to change the file type to “All Files” (*.*) in order to see the file name. Then, the system will automatically prompt you back to the “Load Data” screen.
- 5) Then, click “OK” and wait for the system to load the file
- 6) After the system completes loading, a pop up page will appear to show either the error in the file or that the page loaded successfully.
- 7) Once the ETBs file is successfully uploaded, the consolidation process may begin.

Instruction for Consolidation:

Each bureau user has been given the right to perform “consolidation” during the window open period.

- 1) Select Grid “Consol 13 entities” in the Bureau Workspace.
- 2) Highlight the proper period and entity (for example, under Q1 FY08 column, select “54_00”)
- 3) Go to the top of the screen and select “Action”
- 4) Select “Consolidate” from the drop down menu, a pop up window will appear showing the consolidation status.
- 5) The consolidation status pop up window will automatically disappear when consolidation is completed.

VII. Bureau Supplemental Data Submissions to Load into HFM

Bureaus are required to load supplemental data submissions into HFM for the Balance Sheet and Statement of Changes in Net Position, as specified in the Due Dates Calendar (Attachment I). The supplemental data is now required to be submitted along with the initial ETB file. Bureaus are no longer required to submit a separate file.

See **Exhibit 4** for required format/sample load files for the Balance Sheet Split SGL Accounts and Statement of Changes in Net Position Split SGL Accounts supplemental data submissions.

IMPORTANT: All of the following supplemental data submissions are for the bureau level entity (account balances must be aggregated at the bureau level, as opposed to the Fund Group level). EDA, BIS and NOAA are exceptions to this policy.

Bureaus are required to submit, if applicable, the following supplemental data submissions:

1. Balance Sheet Split SGL Accounts:

When a bureau has an account balance(s) for certain Balance Sheet “split” SGL accounts (SGL accounts that may crosswalk to more than one financial statement line item, e.g., SGL account number 1340 [Interest Receivable] may crosswalk to the Accounts Receivable, Loans Receivable, and/or Investments line), the bureau is required to submit a supplemental data submission. This submission provides a breakdown of the financial statement line item(s) that the SGL accounts crosswalk. **(In addition to preclose submissions, year-end PostClose submissions are required.)**

Bureaus are required to submit a supplemental data submission for the following aggregated (bureau level) SGL account numbers that have account balances:

Aggregated (Bureau Level) SGL Account Number	Supplemental Data Accounts	HFM Major SGL Account Numbers Included
1340 - Interest Receivable	1340IGInv 1340IGAr 1340IGLoan	1340F\$\$, 1340F\$A, 1340C\$\$, 1340C\$A
	1340PubInv 1340PubAr 1340PubLoan 1340PubNotes	1340N\$\$, 1340N\$A
1349 – Allowance for Loss on Interest Receivable	1349IGInv 1349IGAr 1349IGLoan	1349F\$\$, 1349F\$A 1349C\$\$, 1349C\$A

1350 – Loans Receivable	1350PubLoan 1350PubNotes	1350N\$\$
1359 – Allow. for Loss on Loans Receivable	1359PubLoan 1359PubNotes	1359N\$\$
1360 – Penalties, Fines and Administrative Fees Receivable	1360IGAr 1360IGLoan	1360F\$\$, 1360F\$A, 1360C\$\$, 1360C\$A
	1360PubAr 1360PubLoan	1360N\$\$, 1360N\$A
1369 – Allowance for Loss on Penalties, Fines and Administrative Fees Receivable	1369IGAr 1369IGLoan	1369F\$\$, 1369F\$A, 1369C\$\$, 1369C\$A
	1369PubAr 1369PubLoan	1369N\$\$, 1369N\$A
2140 – Accrued Interest Payable-Not Otherwise Classified	2140IGAp 2140IGDebt	2140F\$\$, 2140C\$\$
	2140PUBAP 2140PUBDEBT	2140N\$\$
2190 – Other Accrued liabilities	2190PubOther 2190PubAccrGrnt	2190N\$\$

For those Balance Sheet Split SGL accounts that are intragovernmental (e.g. 1340IGAr), the applicable Federal trading partner sub-account number(s) are also required under [ICP] dimension. Please note that Federal trading partner code ‘13’ (Department of Commerce) is a valid selection for this supplemental data submission.

For example: Let’s assume that SGL 1340F\$\$ [20] has a balance of \$50,000 and 1340F\$A[20] has a balance of \$70,000 for a total aggregated (bureau level) account number 1340 – Intragovernmental of \$120,000. If \$30,000 of this balance represents Interest Receivable related to Accounts Receivable, and \$90,000 of this balance represents Interest Receivable related to Loans Receivable then the bureau’s data submission would show the following HFM supplemental data accounts/balances:

1340IGAr [20]	\$30,000
1340IGLoan [20]	\$90,000

2. Statement of Changes in Net Position Split SGL Accounts:

When a bureau has an account balance(s) for certain Statement of Changes in Net Position “split” SGL accounts (SGL accounts that may crosswalk to more than one financial statement line item, e.g., SGL account number 5790 [Other Financing Sources] may crosswalk to the Other Adjustments, Other Budgetary Financing Sources, Other, the bureau is required to submit a supplemental data submission. This submission provides a breakdown of the financial statement line item(s) that the SGL accounts crosswalk.

Bureaus are required to submit a supplemental data submission for the following aggregated (bureau level) SGL account numbers that have balances:

Aggregated (Bureau Level) SGL Account Number	Supplemental Data Accounts	HFM Major SGL Account Numbers Included

VIII. Bureau Entering of Supplemental Data into HFM via Form

Bureaus are required to enter supplemental data submissions into HFM, as specified in the Due Dates Calendar (Attachment I).

A. Reconciliation of Net Cost of Operations (proprietary) to Budget Supplemental Data Accounts (Enter Data into HFM via Forms)

When a bureau has an account balance(s) for certain Reconciliation of Net Cost of Operations (proprietary) to Budget “supplemental data” accounts (SGL accounts that may require additional breakdown(s) for Reconciliation of Net Cost of Operations (proprietary) to Budget line item(s), e.g., SGL account number 1310 [Accounts Receivable] may require additional breakdown for the calculation of the vendor overpayment collected during the reporting period to 13A_1310Venopay [Vendor Overpayment Collected]), the bureau is required to submit a supplemental data submission. Bureaus will input the Reconciliation of Net Cost of Operations (proprietary) to Budget supplemental data using Forms.

Bureaus are required to enter supplemental data, as applicable, into Forms for the following aggregated (bureau level) Reconciliation of Net Cost of Operations (proprietary) to Budget supplemental data:

B. Supplemental (Non-SGL) Footnotes Data (Enter Data into HFM via Forms)

NOTE: Bureau requirements for additional manual footnotes data (Excel spreadsheets) are included in the FY 2009/2010 Financial Statements Guidance Attachment A, *Financial Reporting*. This section is only applicable to HFM footnotes data.

All bureaus will be required to enter data for up to 14 HFM footnote Forms, as applicable. In addition, NOAA is required to enter data into 1 additional footnote Forms, and NTIS is required to enter data into 1 additional footnote form. Bureau users will “consolidate” the data or OFM will “consolidate” the data upon request. Bureaus will print and verify the HFM footnote reports and confirm to OFM by e-mail when the footnote reports are correct.

See **Exhibit 5** for a complete list of footnotes.

C. Closing Package - Governmentwide Financial Report System (GFRS)

In accordance with the Closing Package regulations set forth by Treasury and the Government Accountability Office, the Department is required to report year-end financial data through GFRS. All bureaus are required to enter data for certain HFM Closing Package Notes/Other data reports as applicable. Also required is Closing Package text data input into GFRTEXT report. For the **text data input, data should be entered at the TOP BUREAU LEVEL (e.g. 67 00 Ontop).**

See **Exhibit 5** for a complete list of Notes/Other Data.

D. Other Quarterly Reporting Requirements (DOL and OPM Confirmations, SBR vs. SF 132s, SBR vs. SF 133s and Erroneous Payments Data)

All bureaus are required to **enter the following into HFM via Forms**. OFM will “consolidate” the data upon request.

1. Supplemental (Non-SGL) DOL Confirmation Data

Bureaus are required to enter the breakdown for the SGL 6400F\$\$[16] balance into two categories, Federal Employee Compensation Act (FECA) and Unemployment Insurance costs (most bureaus will actually use SGL 6400C\$\$[51_01] for this expense). Other required confirmation balances will be populated from ETBs. The quarterly actual FECA cost per the OFM Excel spreadsheet for each bureau will be presented in the DOL Confirmation report for bureaus’ reconciliation purposes.

Bureaus should reconcile the following items:

- SGL 6400F\$\$ [16] and/or SGL 6400C\$\$[51_01] balance in ETBs versus Data entered into DOL Confirmation
- Total for 6400F\$\$ [16] (FECA) and 6850F\$\$ [16] versus Quarterly Actual FECA Cost

NOTE: DOL only provides a combined FECA cost for the Office of the Secretary. OFM will enter the combined quarterly FECA cost of all Office of the Secretary entities into the DM/S&E entity. Therefore, the Office of the Secretary reconciliation should be performed at the Office of the Secretary level.

The required schedule for the DOL confirmation data is:

DOLQCONF DOL Confirmation Report

2. Supplemental (Non-SGL) OPM Confirmation Data

Bureaus will print and verify the confirmation report in HFM and will reconcile any differences with the SGL balances.

The required schedule for the OPM confirmation data is:

TIE_OPM OPM Confirmation Report

3. Supplemental (Non-SGL) SF 132s Data

OFM will enter quarterly SF 132s data, by fund group, into HFM. The report format will allow bureaus to compare quarterly SF 132s to the quarterly Statement of Budgetary Resources. Bureaus will be required to explain differences for each line item of \$1 million or more.

The schedule for the SF 132s data is:

SBR_132 SBR vs. SF 132s Comparison Report

4. Supplemental (Non-SGL) SF 133s Data

Bureaus are required to enter quarterly SF 133s data, by fund group, into HFM. The report format will allow bureaus to compare quarterly SF 133s to the quarterly Statement of Budgetary Resources. Bureaus are required to submit explanations to OFM for any differences. The SF-133 data should be entered into HFM with same signage on SF-133 report.

The required schedule for the SF 133s data is:

SBR_133 SBR vs. SF 133s Comparison Report

5. Quarterly Erroneous Payments Data

Bureaus are required to enter quarterly disbursement and erroneous payment data into two HFM Forms:

1. Quarterly Erroneous Payment Template (**ERRORPAY**)

The data required here include the number (#) and dollar amounts (\$) of disbursements and erroneous payments, by payments types (Grants, Salaries, Vendor Payments, IPAC, and Others).

2. Quarterly Erroneous Payments/Disbursement Projections by Major Program (**ERRPROJ**)

The data required here include dollar amounts of disbursements, erroneous payments, and projected disbursements, by major program.

OFM will review bureaus' submissions for reasonableness, completeness, and consistency with similar data, and provide feedback to the bureaus on any discrepancies. As such, bureaus should examine their data to ensure that:

- (a) Disbursement and erroneous payment totals that are entered into the Quarterly Erroneous Payment Template (ERRORPAY) agree with the disbursement and erroneous payment totals that are entered into the Quarterly Erroneous Payments/Disbursement Projection by Program Template (ERRPROJ). A tie point for verifying the erroneous payments data has been programmed into the ERRPROJ Schedule.

- (b) Quarterly disbursement totals, reported on each of the two templates (ERRORPAY and ERRPROJ) agree with the current quarter's disbursement amount reported on the Statement of Budgetary Resources. OFM will ask bureaus to provide explanations for the difference between the HFM templates and SBR disbursement if the difference is 10% or more.
- (c) Amount reported as "Other" is not material to total disbursements. OFM will ask for a breakout of the amount reported as "Other" if it is 10% or more of total disbursements
- (d) All numbers are entered as positive numbers. OFM will ask bureaus to provide explanations for any items entered as negative numbers.

Notes:

Bureaus should report EFT (electronic funds transfers) payments due to wrong EFT data in the Quarterly Erroneous Payment Template column "Wrong EFT Data" only if the payments were successfully disbursed.

Unsuccessful EFT payments, due to wrong EFT data (where the funds were returned and deposited back into the bureau's accounts) should be footnoted in the Quarterly Erroneous Payment Schedule (ERRORPAY) as follows:

Unsuccessful EFT payments due to wrong EFT data where the funds were returned and deposited back into <bureau's name> accounts totaled:

Number of transactions (#):

Amount (\$):

Each bureau's erroneous payments data will be analyzed to a) identify programs which may be susceptible to significant erroneous payments, b) estimate the annual amount of erroneous payments, and c) convey, to the President and Congress, erroneous payments estimates and a progress report on actions to reduce erroneous payments, in compliance with the Improper Payments Information Act of 2002, Public Law No: 107-300.

Report Name: ERRORPAY (Quarterly Erroneous Payments)
ERRPROJ (Erroneous Payments/Disbursement Projection by Program)

See **Exhibit 5** for a complete list of all required non-SGL reports entered into Forms.

E. To enter Reconciliation of Net Cost of Operations (proprietary) to Budget supplemental data, footnotes, DOL and OPM confirmations, SF 133s data, and Erroneous Payments data into Forms, please follow the below steps:

- 1) Log into the HFM application and click on Workspaces
- 2) Ensure your point-of-view bars are set correctly
- 3) Expand the Bureau_Workspace selection
- 4) Expand the Quarterly_Bureau selection. Choose the supplemental data form to input to.
- 5) Enter the data into the proper light yellow cells. The screens are color coordinated. Light yellow cells are input fields, and green cells are calculated fields or SGL account balance fields. (Reminder: Please always enter a credit balance as a negative number.) (Note: Corresponding colors may be different based on your PC settings).
- 6) Once the data is successfully entered, the bureau user should "consolidate" the data
- 7) Once the consolidation is completed, log in to HFM Reports via Bureau_Workspace (HFM Reports) to print out the report corresponding to the form.

- 8) Ensure your point-of-view bars are set correctly to review the bureau level data after “consolidation” and to compare the bureau-entered data to the SGL calculated amounts. Please review and verify the proper Form for agreement to what was intended to be entered, and for agreement to the SGL calculated amounts.

IX. Print and Verify HFM Reports

After the loading and/or entering of data into HFM is complete, and the “consolidation” of data is complete, bureaus should print and verify the following HFM financial book sets: **Qtr1FSBook** for FY09 Quarter 1 process, or **QuarterlyFSBook** for quarter 2&3 process, or **YearendFSBook** for year-end process, and BPTIEPT. During the Q1 process certain reports will be exempt from the Q1 review process. The Qtr1FSBook should be used to perform bureau checking for the Q1 process only. At year-end, bureaus will also need to print the HFM book set for **ClosingPkgBook**. HFM Report can be accessed by using the following website:
<https://hfmrpt.ocs.doc.gov:8201/hr/common/HRLogon.jsp>

Instructions for printing a book:

- 1) Log on to HFM and click on the book from the selection (Note: the Book sets are noted by a green book symbol).
- 2) Click on the PDF view button from the toolbar
- 3) Edit the member selection and click OK (Note: Do not save the book)
- 4) Select File then Complete Book in PDF. (Note: PDF file may be saved)
- 5) Select the Print button from the toolbar

Separate books are created for bureaus' convenience as follows:

DOC FINANCIAL STATEMENTS– Primary Financial Statements

DOC Fluctuation Analysis – Fluctuation files

FS_FULL – Financial Statements – Consolidating

DOC FOOTNOTES – Footnotes only

GFRNOTES – Closing Package Notes and Other Data

BPTIEPT – Budgetary vs. Proprietary Tie-points

BP TIPOINT NOAA&BIS- Budgetary vs. Proprietary Tie-Point for NOAA and BIS Only

FS4CPOST – Financial Statements for Checking PostClose Data
Intra Commerce Grid Report – Intra Commerce Reports Only

Instructions to Export HFM Reports to Excel:

- 1) Log on HFM double click on the individual report to be exported.
- 2) Establish your point-of-view bars to the entity by editing the current member box that appears. You can also select a fund group (e.g. 67_00_0300). Select the category (i.e. PRECLOSE_FY2009), the quarter (i.e. Q2 09),
- 3) Select "File", then "Export"
- 4) Select "Fully Formatted Grids and Text"
- 5) On the pop-up window (Directory window), click on the button at the top to download the file.
- 6) On the pop-up window (Save window), click on drop-down arrow key, then select the drive to save the file to, and then click on "Save"
- 7) Type a desired file name, then click "OK" (Directory window)
- 8) Open the exported file in your C drive

Instructions for Editing/Viewing the Generic Trial Balance Query Report:

HFM has a generic trial balance query report that bureaus and OFM staff can continually use and edit to perform trial balance queries at the .TOT (i.e. fund group) level:

Please note that automated elimination entities will not be included, because they do not have a .TOT extension. For example, if your point of view is on 63_00, all of the fund groups for Census will view or print, EXCEPT for the automated elimination entity.

You will be able to delete existing HFM accounts in the report that you don't want to view or print, and then add the HFM accounts that you do want to view or print to the report. You don't have to save the file to view or print the report.

- 1) Establish your point-of-view bars to the entity (i.e. 67_00 you want to view or print HFM accounts by total entity (i.e. fund groups). You can also select a fund group (e.g. 67_00_0300). Select the category (i.e. PRECLOSE_FY2009), the quarter (i.e. Q2 09), the report will view or print HFM accounts for the total entities under the entity/category/period shown on the point-of-view bar.
- 2) Double click on the report "TBGENERI" located in the Trial Balance folder.
- 3) To edit HFM accounts to view or print, edit the prompt for box by selecting the selection location button next to the field to make the member selection to be used in the report

X. HFM User Security Policy and Procedure

A. User Maintenance Policy

General

Only HFM Administrator(s) maintain HFM users in the HFM System. Maintaining HFM users includes:

1. Creating users
2. Deleting users
3. Replacing users
4. Maintaining user security profiles.

Note: Office of Computer Services (OCS) will be responsible for the creating user, deleting users and replacing users in HFM. The maintenance of user's security profiles will be maintained by the HFM administrator.

User Maintenance Procedures

User Additions

1. Bureaus are responsible for notifying OFPA Director or HFM Team Leader for the need of an additional HFM user. The OFPA Director or HFM Team Leader will notify HFM Administrator at the bureau's request with the requested new user name and effective date. HFM Administrator will then request, from the user, additional user information as listed below:

Bureau name, IP address, Physical address, User Phone number

2. In a case where a new user requires the purchasing of an additional license, bureaus are responsible for funding the cost of purchasing the license and for funding the annual maintenance costs. When bureaus agree and provide the funding information, HFM Team Leader will inform OFM budget officer regarding the purchase and its funding information.

3. HFM Administrator will then notify OCS to add the new user in the HFM System as of the effective date.

4. HFM Administrator will then assign user security to the new user in the HFM system.

5. Once a new user account is set up by both OCS and the HFM Administrator, the administrator will send the user ID and the initial passwords directly to the user. HFM Administrator will then notify OFPA Director, HFM team leader and the requested bureau management of the completion of adding the new user.

User Deletions

1. Bureaus are responsible for notifying OFPA Director of the deletion of an existing user (via an e-mail containing the user name and the effective date of deletion). Once the HFM Administrator is notified by OFPA Director or HFM Team Leader of the deletion of a user, HFM Administrator will then deprovision the user in the system.

B. User Password Policy

General

Users are required to reset their HFM password every 90 days.

Please take the following steps in order to initially set up or reset your HFM password:

1) You have to access the following website and reset your password.

<http://204.193.224.198/iisadmpwd/aexp2b.asp>

2) The following screen will appear and you need to reset your password as following:

Internet Service Manager

for Internet Information Server 6.0

Domain
Old password
New password
Confirm new password

doc-cbs

***** Please follow the following DOC password policy to reset your password.

See guidance at http://www.ossec.doc.gov/cio/itsit/doc-it-security-program-policy.htm#P4560_435137. (Basically, is at least 8 characters; has not been used in the previous 10 passwords; must not have been changed within the last 1 day; does not contain your account or full name; contain at least three of the following four character groups: English Uppercase Character, English lowercase characters; Numerals; Non-alphabetic characters (such as:!, \$, #..)

3) Once you have changed your password successfully. There are two Back To links that appear on the page. Please select the link called Hyperion Financial Management (HFM). The link should take you to a new log in screen. Please log into the system using your newly created password. (Note: Please ignore HFM Report link for now. Also, if you have successfully changed your password, but are having trouble accessing the link; please open another webpage, using the following web address, <https://hfm.ocs.doc.gov>.)

4) You will see at the top of the screen the words "Select Cluster". Under Select Cluster, there will be a selection called DOCPROD. Double click on DOCPROD and you should see items to the right. You are in the new application for HFM! We would like you to stop the testing at this point. (NOTE: please do not select DOCTEST under Select Cluster).

5) Please log out by selecting FILE – LogOff.

**** Please keep a record of the user ID and password you created in a safe and secure location. Each individual is provided a password and the sharing of passwords is not allowed. In case you forget your password, **only the HFM Administrator(s) can have your password reset**, which will add additional processing time to the time it takes to reset passwords.**

***** In case of being locked out of the system after three unsuccessful log in attempts, you will need to contact the OCS Helpdesk at (703) 487-4747 and provide the answer to your challenge question that you have submitted to the HFM Administrator to have your account unlocked.**

User Password Policy

The HFM password policy is consistent with the Department's guidance on Passwords. The requirements are stated below:

a. You must create each password that you use:

- It must contain at least 8 characters.
- None of the characters can be "blank".
- Six of the characters may only occur once in the password (e.g., 'AAAAAAA1' is not acceptable)

- At least one of the characters must be a number (0-9) or a special character (~, !, \$, #, %, *).
- At least one of the characters must be from the alphabet (upper or lower case).
- **Note:** Do not use the @ symbol in your password.

b. Each of your passwords must not include:

- Words found in any dictionary (English or other language), spelled forward or backward
- System User IDs or family names
- Addresses or birthdays
- Common character sequences (e.g., 123, ghijk, 2468)
- Vendor-supplied default passwords (e.g., SYSTEM, Password, Default, USER, Demo)
- Words that others might guess (e.g., your spouse's name, pet's name, children's name)

c. You must be careful in managing your passwords:

- Keep your passwords to yourself.
- Report any known or suspected compromises of your passwords.
- Use different passwords for different accounts.
- If you write it down, lock it up.
- Change your password at least every 90 days.
- Change your password immediately if your password has been shared, compromised, found to be non-compliant with policy, or if you are directed to do so by management.
- Do not reuse a password you have used any of the last 8 times you have changed your password, or more recently than 2 years from when you last used the password.

XI. Hyperion Issues

- OFM has created a method for Hyperion users to acknowledge Hyperion issues. When an Hyperion issue arises a ticket must be logged with the Hyperion team. It is vital that the right amount of information must be available. **During the Hyperion open window period** you will submit the ticket to the hfmhelp@doc.gov email account explaining your issue. We will provide a response as soon as the problem is resolved.
- **For any issues outside of the quarterly financial statement process** users can send the ticket to (Marlon Rock) mrock@doc.gov and (Kitina White) kwhite2@doc.gov. Please fill out the **top two sections** of the ticket (**Inquiry Information and Inquiry Details**) along with any additional information. Please make sure to include the report name if the issue deals with a report and/or a print screen of the error message as an attachment.

XII. FY 2009/2010 Due Dates

- See FY 2009/2010 Financial Statements Guidance Attachment I, *Due Date Calendar*, for due dates.
- OFM will monitor bureaus' submissions against the due dates. A deadline may be considered not met if the data is incomplete, inaccurate, or not reconciled to other applicable data.

D. Summary of Intragovernmental Fiduciary Confirmation Reports

Bureaus are required to enter the OPM confirmation data into the following schedule, which is included in the **Report Set, Quarterly Bureau:**

TIE_OPM	Office of Personnel Management Confirmation Data
DOLQCONF	Department of Labor Confirmation Data

Bureaus do not have to enter data into these reports:

DOL_CONF	Department of Labor Confirmation Supporting Report
OPM_CONF	Office of Personnel Management Confirmation Supporting Report
BPD_CONF	Bureau of Public Debt Confirmation Supporting Report

E. Summary of Other Quarterly Required Reports

Bureaus are required to enter the data into the following Forms, which is included in the report set Quarterly_Bureau:

SF133	Quarterly SF 133s Data Input and SBR vs SF 133s Comparison Report
ERRORPAY	Quarterly Erroneous Payments Data by Category
ERRPROJ	Erroneous Payment/Disbursement Projection by Major Program

Quarterly Erroneous Payments/Disbursements Projections by Major Program (ERRPROJ)

Bureaus are required to enter data into appropriate data cells (i.e., BIS will be permitted to enter data into BIS' data cells only) as follows:

- Column A: Current Quarter Disbursements by Major Program
- Column B: Current Quarter Erroneous Payments by Major Program
- Column D-G: Quarterly Disbursement Projections

This report has a Tie point that compares each bureau's Total Erroneous Payments entered into ERRORPAY to those entered into ERRPROJ report. This tie-point will work when bureaus; a) have properly entered data into both Forms; and b) have had their data consolidated.
